

# Nursing Homes In Crisis

## We Need You to help avert this crisis

Nursing homes are losing more than \$1000 per resident per month for Medicaid recipients. Over 60% of nursing home residents are on Medicaid. When facilities close communities are heavily impacted: jobs, revenue, and proximity of loved ones. We are trying to pass four bills to relieve some of the funding disparity and we need your help. Please contact your state senator and other Nebraskans.
